

Jose Gonzalez
Director of Guest Services

the wag way.

With summer almost here finding the perfect place for your pet to stay while you're away is quickly becoming a top priority for many pet parents. With so many choices of places to leave your pet it can be overwhelming and emotional to find the perfect place.

Let us help make the decision that much easier for you. Read on, as I point out in this issue the top three reasons why clients who have toured us, tried us and now love us!

Convenience

Wag Hotels offers the option to check in and/or checkout anytime. With no added fees for early morning check in or middle of the night checkouts you can rest assured that Wag Hotels will work around your schedule. You'll never have to worry about scheduling conflicts with Wag Hotels.

Here are a few other convenience factors that clients rave about:

- The convenience of prepaid packages which allow you the convenience of saving money while facilitating faster and easier drop-off & pick-ups.
- A dedicated reservation department to assist with reservations, vaccination records and any special requests before your pet's stay.
- Frequent-guest pricing for loyal clients.

Staffed 24/7/365

Wag Hotels is always staffed 24 hours a day, 7 days a week, 365 days of the year. Unlike some other veterinary hospitals or pet care facilities who just have employees sleep on-site and “watch” after your pet, Wag Hotels always has a team member on-site working throughout the night attending to our guests' and clients' needs.

Cleanliness

Take a tour... see and smell the difference. You'll be amazed. Wag Hotels is the cleanest facility you'll ever tour. Built from the ground up, our facilities are specifically designed with pet care in mind. Floors, walls and play-area equipment are all constructed of non-porous materials that resist bacteria. We incorporate industry leading technologies & techniques for sanitizing pet areas. In addition, we've invested in the latest and greatest equipment such as commercial grade restaurant dish sanitizer and industrial washers & dryers to ensure your pet stays healthy and safe while in our care.

All the best,

Jose

If you would like to send Jose a question about caring for you dog/cat,
please email him at info@waghotels.com.
